

TRAIN THE TRAINERS

CYBER SECURITY, AI & SOFT SKILLS

PARTICIPANTS

COSMO TEACHERS & SHALINIS

DATE

22 – 24 DECEMBER, 2025

TIME

9:00 AM – 05:00 PM

LOCATION

Nath School of Business & Technology, MGM University, Chh. Sambhajinagar, Maharashtra

The Professional Teacher

Communication That Clicks: Closing the Gap

Effective teaching requires bridging the gap between teaching and understanding to ensure better comprehension and better engagement.

Bridging the Understanding Gap

The Teaching vs. Understanding Divide

Misalignment causes confusion

Importance of Effective Communication

Clear messages enhance learning

Align Content with Student Needs

Tailored lessons ensure understanding

Communication Beyond Words

Tone

Tone influences how messages are perceived.

Body Language

Body language conveys emotions and intentions clearly.

Pauses

Pauses enhance emphasis and allow reflection.

Pace

Pace affects audience engagement and understanding.

Appearance

Appearance impacts first impressions in teaching.

Creating Respectful Learning Environments

Teamwork

Collaboration among teachers fosters shared responsibility and creates a stronger, more supportive classroom environment.

Emotional Safety

Building emotional safety encourages open communication, allowing students to express themselves without fear of judgment.

Strong Teams, Strong Classrooms

Collaboration Builds Community

Fostering trust and respect.

Shared Responsibilities Enhance Learning

Everyone plays a crucial role.

Continuous Professional Development

Learning together strengthens skills.

Classroom Management Techniques

Establishing Clear Expectations

Set rules together collaboratively.

Use Positive Reinforcement

Recognize and reward good behavior.

Encourage Student Autonomy

Foster independence through choices.

"Empathy allows us to connect with each student's unique experience, fostering understanding and learning success."

Empathy: The Heart of Teaching

Professional

Professional empathy involves fairness and consistency, ensuring all students feel respected and valued in the classroom.

Personal

Personal empathy fosters understanding and connection, enabling teachers to support students emotionally and academically in diverse situations.

The Power of Voice

Modulation Makes a Difference

Varying tone captivates listeners.

Word Stress Enhances Clarity

Emphasizing key points aids retention.

Silence Speaks Volumes

Pausing creates anticipation and focus.

Word Stressors

मैंने नहीं कहा कि उसने गलती की है।

मैंने **नहीं** कहा कि उसने गलती की है।

मैंने नहीं **कहा** कि उसने गलती की है।

मैंने नहीं कहा **कि** उसने गलती की है।

मैंने नहीं कहा कि उसने **गलती** की है।

मैंने नहीं कहा कि उसने गलती **की** है।

Age Group	Learner Characteristics	Teaching & Learning Focus	Effective Teaching Strategies	Role of the Teacher
Early Childhood (3–5 yrs)	Learns through play, senses, imitation; short attention span; emotionally dependent	Language exposure, motor skills, social interaction, curiosity, emotional safety	Storytelling, rhymes, songs, play-based activities, movement, visuals	Nurturer, facilitator, emotional anchor
Primary (6–8 yrs)	Concrete thinkers; eager to participate; seek encouragement	Literacy & numeracy foundations, listening & speaking skills, discipline, confidence	Activity-based learning, games, puzzles, repetition, visuals, guided discussion	Guide, motivator
Upper Primary (9–11 yrs)	Growing logical thinking; curious; competitive; opinion-forming	Concept clarity, reasoning, problem-solving, teamwork, responsibility	Projects, experiments, group work, real-life examples, reflection questions	Coach, challenger
Early Adolescence (12–14 yrs)	Emotionally sensitive; socially aware; questions authority	Critical thinking, self-expression, ethical understanding, empathy	Case studies, debates, role play, open-ended questions, journaling	Mentor, role model
Secondary (15–18 yrs)	Goal-oriented; identity-driven; seeks relevance	Application of concepts, decision-making, career readiness, leadership	Project-based learning, presentations, research, peer feedback	Facilitator, guide
Adults / Higher Education	Experience-driven; practical; self-directed	Real-world application, skill enhancement, reflection, problem-solving	Case discussions, simulations, experience sharing, action planning	Facilitator, co-learner

Enhancing Teaching with Technology

Clarity in Preparation

Streamlines lesson planning processes

AI as a Teaching Assistant

Supports teachers' instructional strategies

Improved Lesson Delivery

Engages students effectively

AI as a Teaching Assistant

Notion for Organization

Streamlining lesson planning processes

Gemini for Idea Expansion

Enhancing creativity in teaching

Copilot for Drafting

Simplifying written content creation

"Embracing technology and AI in teaching enhances clarity and efficiency, transforming the educational experience for all."
